

School Shootings

Need for Change

SINCE 1991 THERE HAVE BEEN

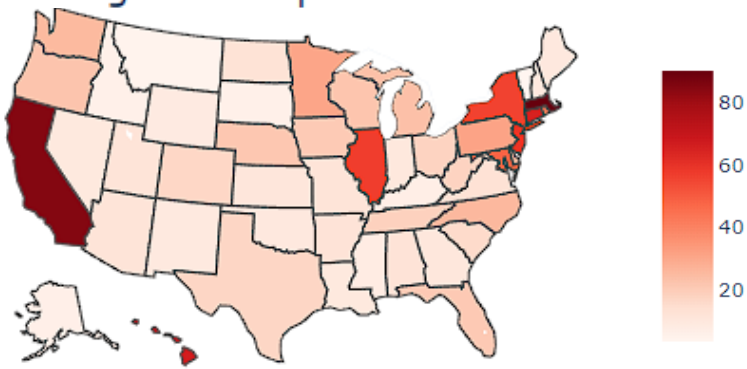

2290 VICTIMS

OF SCHOOL SHOOTINGS

Why **YOU** should write to our local and Federal leaders about increasing gun regulations

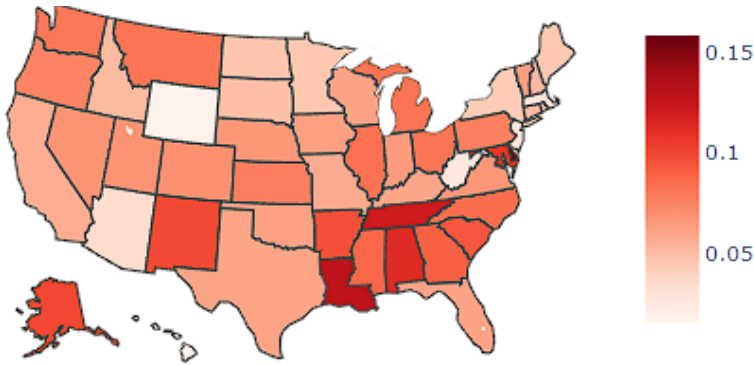

Gun Regulations

Gun Regulations per State from 1991-2017

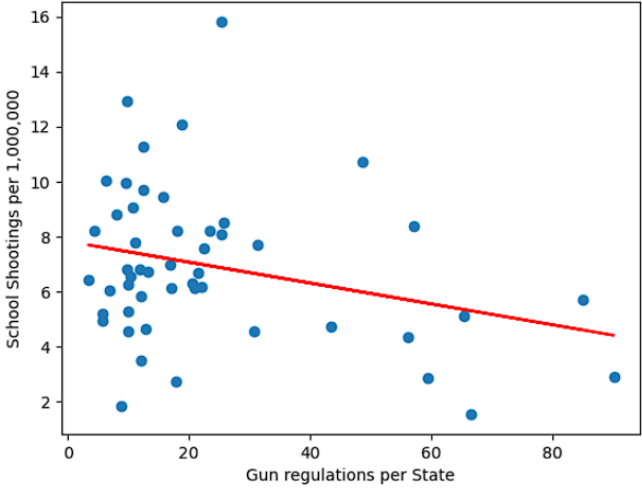

It is clear that when a State has a **high concentration of gun regulations**, the average number of **shootings per a states population decreases**.

School Shootings per 1 million from 1991-2023

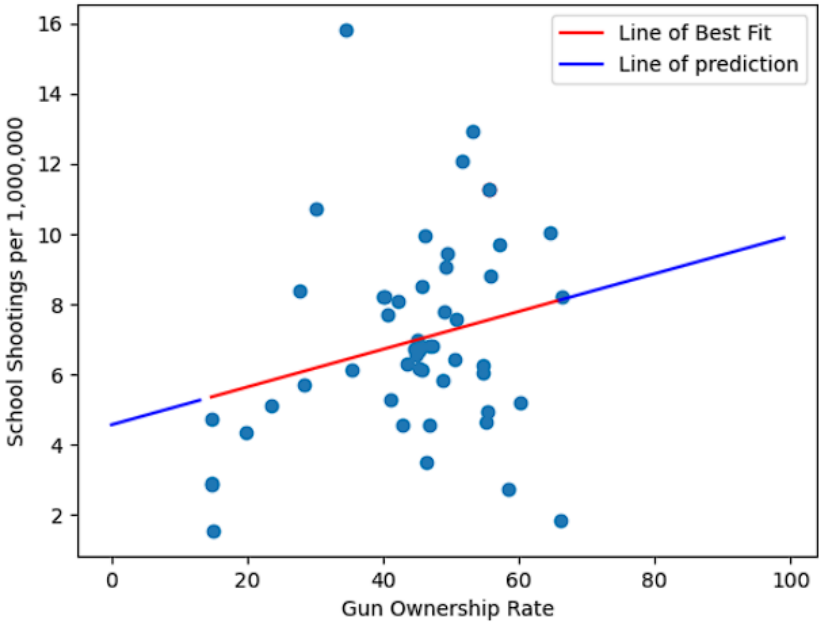

Average Gun regulations vs School Shootings per 1,000,000 State citizens

Gun Ownership

Gun Ownership Rate vs School Shootings per 1,000,000 citizens per State

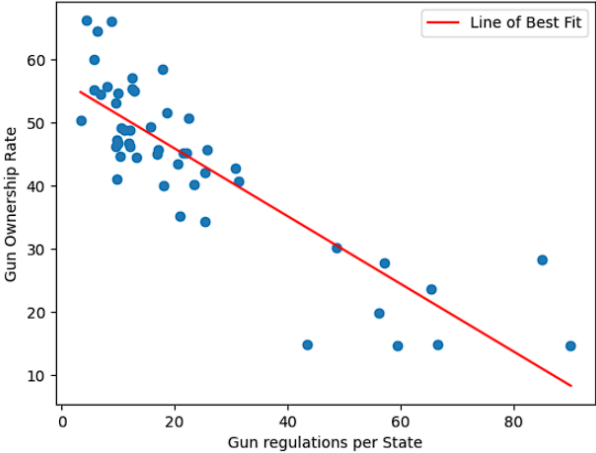

If we as a nation can reduce our gun ownership rate, then we can **control** the number of school shootings that occur.

There is an **extremely evident** correlation between a state's gun regulations and its gun ownership rate.

The key to **reducing** the number of school shootings is to **increase** our nations gun regulations.

Gun regulations per State vs Gun Ownership Rate

So, what can **YOU** do?

Our **voices matter**, they are **heard**. I am urging you to scan this QR code and spend just a **few** minutes out of your day to help preserve the **lifetimes** of many of the youth in our nation.

The QR code will take you to a template of a letter that you can send to our state's Senator, Ted Cruz, about increasing gun regulations.

YOU have a **VOICE**, it **MATTERS**

"To let these victims' lives be taken without any change in return is an act of **treason** to our great country."

-Lorenzo Prado, Parkland school shooting survivor
